

Dear Funders + Supporters of YLA

Thank you for helping me be able to go on the youth leadership Program. I was able to learn so much more on how to be a leader, how to Camp in the back Contry and how to ask People questions. This trip has helped me destress from life at home and gave me a clean palate before School starts. I have always loved the outdoors I used to go outdoors horseback Riding until my horse sammy passed away then & I didnt go outside much and I have always wanted to know how to Camp out in the Back Contry I hope after this I can show my family how to stay out in the Back Contry. I just want to thank you for this great of experance. I was so excited to find out I would be able to do a trip like this this Summer. I was able to learn how to hike, tend a camp as well as demolish a bridge. So I just want to thank you for making this possible.
